

FLEXO UV MACHINE CLEANER

Galaxy Flexo UV Machine Cleaner is a strong cleaning liquid for Post-print printing plate cleaning with water-based, UV, conventional and hybrid inks.

Application: Suitable for both automatic and manual application.

For Post-print printing plate cleaning with water-based, UV, conventional and hybrid inks, to wash the printing plates from dirt, such as paint, oil, grease, glue or other

Flexo UV Machine Cleaner has very good cleaning properties and is completely water miscible.

Does not react with light metals

Procedure to use: For manual application, moisten a clean cloth with pure Flexo UV Machine Cleaner and clean the printing plate. When all ink is removed, make a final rinse with a clean cloth and clean water.

For automatic wash equipment follow the instructions from the machine manufacturer.

Product parameters:	Appearance	Transparent liquid
	Specific gravity	0.95 – 1.05 g/cm ³
	Flash point	> 100 °C
	pH	6.5 – 7.5

Storage conditions: Store at room temperature conditions. Keep away from open fire and heat sources.

Shelf life: In unopened, original packaging, 12 months from manufacturing date

Packaging: 20ltr jerrycan

Version: 01-2012

The information provided in this technical data sheet is to inform our customers. A successful application depends on a variety of different factors. Therefore, the advice given in this technical data sheet cannot be used as basis for claims. Our recommendation is where possible to perform tests before entering production runs. We reserve the rights to change product characteristics because of technical progress, amendment of applicable law and mandatory production related needs.
