

pureRad™ and purekote™ laminating adhesives and PSAs

still looking for a high-quality adhesive?

pureRad™ laminating adhesives and **pureseal™** heat-seals for flexo printing in partnership with **Beijersbergen & Partners BV**

packaging, printing and graphics

Ashland provides innovative technology solutions for a broad range of narrow-, mid- and wide-web applications. Besides solvent-based acrylic PSAs, Ashland has an extensive product line for the packaging & converting industry. Our water-based laminating adhesives open new possibilities for using flexible packaging in place of traditional packaging. Faster curing adhesives improve the converter productivity. Anchorage promoters and print receptive primers enhance the allure of products on the shelf. Functional coatings, primers, heat seal or cold seal adhesives and flexo graphic UV/EB or LED curable varnishes and laminating adhesives are expertly formulated to meet customers' most stringent requirements in areas such as food and beverage, shipping, transportation, health and beauty, industrial, postage and security printing.

about Ashland

We are passionate, tenacious, solvers who thrive on developing practical, innovative, and elegant solutions to complex problems in applied chemistry, always pushing the boundaries of what's possible, and advancing the competitiveness of our customers. Our people are distinguished by their ability to create and apply specialized chemistry in ways that enable customers to amplify the efficacy, refine the usability, add to the allure, ensure the integrity, and improve the profitability of their products and applications. We achieve this by offering a vast product line, custom solutions, and superior technical support.
